ENGL 106Y | FALL 2018 (16 WEEKS) | ONLINE

## COURSE DESCRIPTION

Welcome to ENGL 106, Purdue's first-year composition course! This section of ENGL 106 focuses on academic writing & research, or, the ways that we communicate in and with scholarly communities and disciplines. Because of our focus on scholarly communities, we'll not only read from a textbook, but also from a variety of other texts: journal articles, online news articles, YouTube videos, podcasts, reports, data visualizations, and blog posts. You'll also have the opportunity to practice composing with a variety of media in this course: text, pictures, charts, graphs, and more.

In this course, we will explore

- What it means to compose as a scholar (including designing, drafting, revising, presenting, creating content, etc.)
- How to find and evaluate information and how to conduct secondary research using library resources and databases and popular search engines and media
- How to be an ethical researcher and writer
- The conventions for communicating with a variety of audiences, including scholarly peers and laypersons
- How different technologies and media change the way that we write, communicate, and share information with each other
- How you'll incorporate writing and media into your future career

# LEARNING GOALS

English 106 is the standard 4-credit hour composition course for students at Purdue. The course provides students with the opportunity to interpret and compose in both digital and print media across a variety of forms. Students engage in active learning, which includes class discussion, learning in small groups, problem solving, peer review, and digital interaction. English 106 is grounded in the idea that writing provides an outlet for sharing and developing ideas; facilitates understanding across different conventions, genres, groups, societies, and cultures; and allows for expression in multiple academic, civic, and non-academic situations. In short, writing is a way of learning that spans all fields and disciplines.

By the end of the course, students will:

1. Demonstrate rhetorical awareness of diverse audiences, situations, and contexts.
2. Compose a variety of texts in a range of forms, equaling at least 7,500-11,500 words of polished writing (or 15,000-22,000 words, including drafts).
3. Critically think about writing and rhetoric through reading, analysis, and reflection.
4. Provide constructive feedback to others and incorporate feedback into their writing.
5. Perform research and evaluate sources to support claims.
6. Engage multiple digital technologies to compose for different purposes.

For more information on these items, see the [Introductory Composition at Purdue \(ICaP\) learning goals website](#).

---

# COURSE MATERIALS

For this course, you will purchase one digital book:

Ramage, J., Bean, J. C., & Johnson, J. (2018). *The Allyn & Bacon Guide to Writing (Brief Edition)*. 8<sup>th</sup> ed. Pearson. ISBN-13: 978-0134407678. \$45–\$55.

You will not purchase/receive a print textbook. You must purchase the digital edition of this textbook with the REVEL access card. REVEL is the textbook publisher's (Pearson's) fully digital delivery system. You will need REVEL to complete textbook quizzes and other activities that are required for your participation in this course. In addition to the

REVEL access card, you will need a course invite link, which you can access on our course's Blackboard page, to register for and use REVEL.

Other course texts (readings, reports, videos, images, etc.) will be available as PDFs or links from our class Blackboard site, and are indicated on the course schedule. All other class materials (slideshowes, videos, handouts, etc.) will also be available on Blackboard. **All course readings and videos are required, unless otherwise noted.**

---

## ONLINE COURSE EXPECTATIONS

A virtual course is likely very different from other courses you've taken at Purdue. In an online course, your only contact with your instructor and classmates is through email, discussion boards, chat rooms, and web conferencing, and you will get to know me, your instructor, through my video lectures. The course therefore requires that you check your email regularly, maintain open channels of communication, and ask questions when necessary. You cannot fade into the background in this course: you have to participate in all discussion boards and forums in order to pass.

**This course will be intensive and fast-paced.** It will require time management skills, as well as a commitment of several hours of work per week for reading, researching, writing, revising, and engaging in collaborative activities. Do not let yourself fall behind on course material, as it will become difficult to catch up very quickly. I recommend that you maintain a calendar and to-do list for the class, and schedule time each week to complete assignments and projects.

---

## TECHNOLOGIES

In order to participate in course activities, the following technologies are required:

- A high-speed internet connection, which you will access daily for course communication through email, as well as Blackboard use
- A laptop or desktop computer with Windows Vista or higher, or Mac OS 10.6 Snow Leopard or higher
- A microphone and/or webcam, for video conferencing
- A program that can open PDFs (such as Acrobat or Preview)
- Microsoft Office, Apple's Office suite, or open source equivalents (please save documents in .doc, .docx, or .pdf formats—no PAGES files, please!)

percentage	letter grade
100–97 = A+	4.0 = A
96–93 = A	3.7 = A-
92–90 = A-	3.3 = B+
89–87 = B+	3.0 = B
86–83 = B	2.7 = B-
82–80 = B-	2.3 = C+
79–77 = C+	2.0 = C
76–73 = C	1.7 = C-
72–70 = C-	1.3 = D+
69–67 = D+	1.0 = D
66–63 = D	0.7 = D-
62–60 = D-	0.0 = F
59% or below = F	

# ASSIGNMENTS AND GRADING

Note that these are just brief descriptions; each project has several required components, and full assignments will be posted on Blackboard. Please see the Class Schedule for due dates.

**Grading Policy:** Grades will be posted for all course assignments within one to two weeks (7-14 calendar days) of their due dates.

**Late Work:** I do not accept late work unless arrangements have been made at least 48 hours prior to the due date. Final drafts of projects 1–4 must be uploaded to their [Blackboard](#) dropboxes by 11:59pm on the assignment due date, unless otherwise specified on the syllabus.

## Project 1: Informational Interview

**Report**.....20%

You will connect with a working professional within your field of study (or a field of study that interests you) to conduct an interview about their professional reading and writing practices. You will write and design a report that details the results of this interview, describing what you learned about the type of literacy work that you might do after you complete your undergraduate education. (approximately 1000–1500 words with reflective memo)

## Project 2: Scholarly Article

**Analysis**.....20%

You will analyze and evaluate an author’s argument in a piece of writing related to your major while assessing the research that they use. Identifying the different rhetorical

strategies that the author uses will help you to better understand how scholarly arguments are made in their discipline. You will make an overall judgement about the piece's effectiveness for the author's intended audience. (approximately 1750–2750 words with reflective memo)

### **Project 3: Researched Argument**

**Essay**.....20%

You will use scholarly and popular sources to construct a researched argument related to your field of study, making a suggestion for a continuation or change in conjecture, definition, quality, or policy. Conducting scholarly research using Purdue Library databases and open source digital tools (like Google Scholar), you will assess, summarize, and synthesize sources to present an argument to a community of scholarly peers. (approximately 2250–2750 words with reflective memo)

### **Project 4: Research**

**Poster**.....20%

You will remediate your researched argument into a poster like those presented at research conferences, such as Purdue's [Undergraduate Research Poster Symposium](#) (URPS). You will create a research poster (using Powerpoint, InDesign, Canva, or another page design tool) aimed at educating an audience on the issue you chose for your researched argument essay. (approximately the equivalent of 2000 typewritten words with reflective memo)

### **Discussions & Conference**

**Journals**.....10%

Over the course of the semester, you will be asked to submit 1–2 page responses to course readings, designed to contribute to your understanding of course concepts. These, as well as participation in four (4) required conferencing journals, will be averaged to form your short writing grade. Additional information on these short assignments will be given on Blackboard.

### **REVEL Reading**

**Quizzes**.....10%

As you work through our digital textbook, you are required to complete reading quizzes on assigned material. See the REVEL guide in the REVEL content area on our course Blackboard page for more detailed instructions.

---

## **CONFERENCE JOURNALS**

Traditional English 106 classes have conferences—weekly meetings between the instructor and students to talk about works in progress. Since our online class doesn't

have a designated meeting time, we will conduct conferences through Blackboard's Journal function. Four times throughout the course of the semester, you will write a brief response to a prompt posted in the "Journal Responses" content area on our Blackboard page. I will not assign specific weeks or specific dates to you, so you must decide which weeks will be your conference journal weeks. I will also not remind you if you aren't completing them throughout the course of the semester. If you'd like to complete them all in the first four weeks, that's fine—as is waiting until the last four weeks, or doing one every other week. Whichever weeks you choose to submit a conference journal, the journals are always due on **Fridays at 11:59pm**.

Journal posts are opportunities for you to reflect on your writing process and ask me questions about your specific drafts. The prompts typically require you to 1) tell me about how your writing process is going for whatever assignment we're working on, and then 2) ask me a few good questions about the assignment. These journals are a great opportunity for you to voice any specific anxieties you have about the drafting and revision process, to talk through any roadblocks you hit while writing, or to celebrate projects that you think are going really well. I am the only one who will see the journals, and I'll respond in a timely manner to each post.

## STUDENT GUIDE

All Purdue policies apply to this course. Learn more in the [Student Guide to ICaP](#).

---

## ONLINE ETIQUETTE

Online courses provide an excellent opportunity for students to freely share ideas with each other. Many students who are uncomfortable speaking up in a traditional face-to-face classroom find that they prefer the online experience. However, sometimes this sense of freedom can be abused, and lead to rudeness or disrespect in digital interactions. Online courses do afford us a relative amount of anonymity, and that can sometimes embolden us to write things that we wouldn't say to someone in the physical space of a classroom or just in person, generally.

I expect that you all will respect your classmates and their opinions. **Flaming** (hostile or insulting interaction) and/or **trolling** (offering interaction that is irrelevant or inflammatory in order to make people upset or uncomfortable) will not be tolerated in this course; if you engage disrespectfully with your classmates or your instructor, it will negatively affect your grade. It is always important to be concise, informative, and polite when communicating with your colleagues and your instructors, and it is especially important to this course that you be cognizant of your purpose, your tone, and your

language, because we all have to learn from one another in digital spaces. Harassment of any kind will not be tolerated.

Flaming and trolling close off discussions rather than creating conversations and spaces that encourage learning and open communication, and in order for this course to be effective, we must be able to speak comfortably and listen well.

---

## ACADEMIC HONESTY

Academic honesty is required. Please do your own work and cite your sources—do not plagiarize. All academic honesty violations will be reported, and may result in a failing grade for the assignment and likely the course.

One of the responses to plagiarism and academic dishonesty from the Office of the Dean of Students (ODOS) is to require the student accused of plagiarism or academic dishonesty to take an online course through Academic Integrity Seminar, a third-party vendor not affiliated with Purdue, for a fee of \$100.00. This course involves independent reading and writing, as well as Skype meetings with an Academic Integrity Seminar representative, who will both help the student and verify whether the student is doing their own work to complete the course.

For more information on academic honesty and integrity at Purdue, see the [Office of Student Rights and Responsibilities webpage](#).

---

## DISABILITIES & ACCOMMODATION

Purdue University strives to make learning experiences as accessible as possible. If you anticipate or experience physical or academic barriers based on disability, you are welcome to let me know so that we can discuss options. Alternate assignments can be provided for students who may face difficulties or be otherwise unable to complete them due to disability (for example, a different remediation assignment than designing an infographic may be provided to a student with visual impairments for Writing Project 3). It is best to send an email or stop by my virtual office hours early in the semester. You are also encouraged to contact the [Disability Resource Center](#) at: [drc@purdue.edu](mailto:drc@purdue.edu) or by phone: 765-494-1247.

---

# EMERGENCIES

To report an emergency, call 911. To obtain updates regarding an ongoing emergency, sign up for Purdue Alert text messages at [www.purdue.edu/ea](http://www.purdue.edu/ea).

There are nearly 300 emergency telephones that connect directly to the PUPD, both outdoors across campus and in parking garages. If you feel threatened or need help, push the button and you will be connected immediately.

Please review the Emergency Preparedness website for additional information:  
<http://www.purdue.edu/emergency/>.
